

## WEEKLY UPDATE: MARCH 20<sup>TH</sup> - 26<sup>TH</sup>

**J. T. FOSTER SCHOOL**

**MONTH:** March

**YEAR:** 2020

---

### **From the Office:**

What a week! Thank you to so many parents, guardians and children for the many kind emails. We are going to be starting online studies officially on Monday. I know our teachers have already begun to reach out to their students with instructions, and this email will serve as our starting point.

Check out <[Continuing Student Learning](#)> released today from the Ministry of Education. It provides information about Provincial Achievement Tests (PATs) Diploma Exams (DIPs) and graduation.

As we move forward, there will be missteps and kinks along the way. Please feel free to reach out to us at any time, and we will help in whatever way we can. Emails to <[s-jtfoster@lrsd.ab.ca](mailto:s-jtfoster@lrsd.ab.ca)> are accessed by all of us in the office and will be responded to the most quickly.

This past week we called as many families as we could; the vital information gathered will be used to make the new reality as seamless as possible. First of all, if you identified that you needed a device or have poor internet, we will be in contact early in the new week to provide alternatives. Our school division is preparing some Chromebooks to lend out if necessary. The hope is for this loan program to be available early next week.

In Junior High, education content will focus on core mathematics, language/literacy, science and social studies curriculum outcomes. Teachers will assign an average of 10 hours of work per student per week and will be expected to work with their students and parents on the delivery of these materials.

In Senior High, Grades 10-12 education content will focus on specified and core courses required for high school graduation requirements, including language, social studies, mathematics, biology, chemistry and physics. Content from other courses will be delivered where possible, and accommodations for students unable to complete courses are in place. Teachers will assign an average of 3 hours of work per course per week and will be expected to work with their students and parents on the delivery of these materials.

Please reach out to me anytime as we navigate this new reality and stay healthy,

### **From our Learning Support Teacher:**

I am available to help families and students via email at <[parkera@lrsd.ab.ca](mailto:parkera@lrsd.ab.ca)>. I will have the Knowledge and Employability Workplace Readiness 10-4 course available on google classroom and will invite any eligible students.

### ***From the desk of our FSLC:***

During times of stress, it is difficult to support our children when we forget to breathe and take care of ourselves. Please check in with yourself and your children to see where their emotional and mental well-being is at. If you need help in supporting your child, I am available. Please reach out. There will also be several resources in the coming days available on the LRSD website to help families with immediate needs and mental wellness as we navigate this together. Feel free to email me any time via email <[conwaya@lrsd.ab.ca](mailto:conwaya@lrsd.ab.ca)> or by calling J.T. Foster 403-646-2264.

### ***From the desk of our Career Practitioner:***

Contact details for LettieCroskery:

email: <[croskeryl@lrsd.ab.ca](mailto:croskeryl@lrsd.ab.ca)>

Hello J.T. Foster families! I want to continue to work with our students in researching future career paths and post-secondary education/funding options during this time away from our school building. Please email, text or call me and we can review the information together! There is no need to stop our career planning processes, but instead of fun field trips and in-person/class discussions, we will find a way to connect in a positive, productive manner.

The [Career Services](#) pages of our school website have links to MANY career sites and scholarship lists prepared specifically for students at J.T. Foster. As new information is available, these lists will be updated and posted.

**GRADE 12 students:** Please reach out to me as you feel the need. I know this is a difficult transition for you all and the post-secondary institutions are also working to give you answers about your admissions for next year. Please don't hesitate to contact me and let me know how you are doing. I will do my best to access information for you, and help you on your journey.

[GRADE 11 AWARD of MERIT](#). If you are currently in grade 11 AND you think you MAY be applying to the University of Lethbridge in your grade 12 year, there is a unique \$800 scholarship you all should be applying for before the end of June. It is based on your projected marks from grade 11 and takes less than 2 minutes (yes, I timed a student who applied!) to complete the online application. DO IT NOW, before you forget!

The Spring 2020 Provincial Budget's impact on Livingstone Range School Division means we will need to cut \$2.2 million from our operating budget over the next 3 years. Despite changes to our funding, high-quality education for students remains a top priority in LRSD. We are now in the process of reviewing our financial landscape and making decisions for the 2020-2021 school year.

The Livingstone Range School Division Board of Trustees is seeking engagement from stakeholders as part of this process.

We want students, parents, and staff to provide input on setting priorities. What is important to you? Where do you believe dollars will be best spent? What are the key areas we should consider as we work on our 2020-2021 budget and review our 3-Year Educational Plan?

Please take our short survey. Your feedback will help us make decisions that have the greatest impact for students. The survey will be open March 12-22.

We promise to listen to your concerns and hopes, keep you informed, and share how your feedback helped influence our decisions.
