## *Principal's Message - Mr. MacDonald*

### Earning High School Credits

Students earning credits that they need to graduate means a variety of potential pathways for each individual. There are many benefits to attending a rural school. However, some challenges force rural schools and school divisions to be innovative around the programming that can be offered. In responding to these challenges, school jurisdictions try to support schools by providing virtual programming for schools that cannot offer the courses students would like to take.

To curb these challenges, we welcome all students and parents to make an appointment with us to discuss your child's academic pathway. The best decisions are made when they are made collaboratively. If you would like to make an appointment with Mrs. Spencer or me, please contact us at your earliest convenience. We will make every effort to set up a time that works for you.

Jason MacDonald - Principal

## *Assistant Principal/Learning Support - Mrs. Spencer*

Now that we are settled into the 2024-2025 school year, the time has come to work on Individual Student Plans (ISPs). In the next couple of weeks, teachers will connect with students who have ISPs to write goals for the 2024-2025 school year. Teachers will then connect with families to book meetings for October 25, 2024.

Jillian Spencer- Assistant Principal
